The total estimated cost of the remediation and abatement is \$2.5M, with construction to follow for a total project cost of \$11.2M.

Committed funding sources include:

A Corrective Action Plan (CAP) has been approved by the Vermont DEC and the EPA. Mitigation measures outlined in the CAP and Addendum 1 of the CAP will be followed during project redevelopment. Additional mitigation includes remediation of asbestos containing materials, lead based paint, and PCBs. This shall be completed following any exterior building materials abatement to avoid potential cross-contamination.
