

WATER CONSERVATION NOTICE:

St. Johnsbury Water System

(including Passumpsic FD & St. Johnsbury Center FD)

8/12/25

All St. Johnsbury Water System users including consecutive water systems mentioned above are under a water conservation notice effective immediately.

Please curtail non-essential water usage and other water-intensive tasks, including watering lawns and gardens, washing vehicles, spraying down driveways and filling pools.

The water system is experiencing record usage/demand due to the weather that has limited the recovery of our water storage tanks.

Thank you for your help, we expect this situation to resolve as daily temperatures return to normal levels.

St. Johnsbury Water System (WSID# 5045)
